12/04/24 - Arun will create a new menu for user - without grid and also base on access right (dim when do not have access) also will work from dynamic form to user form

For dynamic Form -add new column in display - show which one is the grid form

4. Listing

- a. Do not want "is grid"
- b. Assignment of job is a grid information can use pop up?
- c. During demo - subform filter crash
- d. RND on the dynamic report

Profile No	Is Grid	Job Require for	Description of the Job	Assignment of Job	Type of Job Request	Current User	Modified
ICT - CR-0033	<input checked="" type="checkbox"/>	SWGP	BMR Approval Timeline	New			Yi HueyJung

5. Delete is risky here for form design **12/04/24 - is a soft delete so is ok**

6. Base on where I rest to add new row, **12/04/24 - will use 1,2, 3 seq**

Value	Description
New	New requirement
Revision	Revision of an existing procedure/projects
Others	Others
Rectify	Solve a problem with request

7. Can set access right at grid? But will affect actual master? **12/04/24 - will check**
Reason is not to affect and allow user to key in accidentally

8. When I click on it will show all folder, I will need can be any of the subfolder of of ICT/ICT - CR
